Bib numbers

Use your bibs from TempO race. If you don't participate the TempO, your bib will wait for you at the start.

Assistance

Will not be provided by organiser. Take your own assistance. You will need it in case you have no additional motor on your wheelchair.

Toilets

Before the start there is one ToiToi Handicap Cabine. The same one is at the end of the course in the finish.

Start list

Available on the website. Please, follow it as much as you can. In fact, you can start anytime during the race is on, but there may be a problem with a queue before the TC when many competitors start at once.

Workflow of the race

You as competitor come to the start by marked path. The path will be marked from parking by blue-white stripes. There is a quite big climbing to the Start (20m), so please, if you can, help wheelchair competitors without assistance to get there.

On the start you clear your SI chip, take the map and punch the SIunit START. Then do your job on the course. When you reach the finish, don't forget to punch the SIunit FINISH.

Close to the finish there is a ToiToi Cabine.

After that you follow the signs to time controls (steep asphalt uphill), where you stop at the STOP sign and wait for referee signal. TCs are close together.

After the 2nd TC you read out your SICard and your race is over. Until the last competitor starts we take your map from you (all collected maps will be available at the WTOC Model race, where you can pick them up).

Then you quietly leave the competition area to parking by the shortest possible way. Don't observe controls, don't disturb other competitors.

Protests and complains

For technical issues and complaints the Adviser is available at the last time control. There you can tell him, what was wrong and if it is necessary, handle it there. Official protest time starts right after the last competitor finish his race and it last for 15 minutes. Fee for given protest is 10 EUR.
